

SIVA KUMAR M

Web Developer | Full Stack Developer | AI Developer

Tenkasi, Tamil Nadu | 7010941182 | sivakumarcse18@gmail.com | [linkedin.com/in/siva-kumar-48847a275](https://www.linkedin.com/in/siva-kumar-48847a275)

PROFESSIONAL PROFILE

Enthusiastic Full Stack Developer with hands-on experience in Python and AI/ML technologies. Proficient in creating scalable web applications, implementing AI solutions, and delivering seamless user experiences. Strong problem-solving abilities with proven capability to work effectively in team environments and meet project deadlines. Actively skilled in leveraging modern AI tools for development optimization and innovation.

EDUCATION

B.E. Computer Science Engineering

2022 – 2026

JP College of Engineering, Tenkasi, Tamil Nadu

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design

Backend: Python, Flask

Database & Tools: MySQL, Excel, Tkinter

AI & Machine Learning: Computer Vision, AI Integration, Gemini AI Model

AI Prompt Engineering & Tools: ChatGPT, Claude, Google Gemini, Perplexity AI, Cursor AI

PROFESSIONAL EXPERIENCE

Python Web Developer Intern | Greenpixel Tech, Surandai, Tamil Nadu

February 2025

- Developed and deployed web applications using Flask framework with modern design patterns
- Designed and optimized MySQL databases for efficient data management and retrieval
- Created user-friendly interfaces combining HTML, CSS, and JavaScript for enhanced user experience
- Identified and resolved bugs while implementing performance optimization strategies

Full Stack Developer Intern | The Mind IT Solutions, Trichy, Tamil Nadu

July – August 2025

- Developed full-stack web applications using Python and Flask for backend systems
- Implemented responsive user interfaces with modern web technologies and CSS frameworks
- Worked with MySQL to design scalable database architectures for complex data operations

KEY PROJECTS

Smart Alert System for Wildlife Conservation | AI-powered computer vision project

Dec 2025 – Present

- Engineered an AI-powered computer vision system integrating the Gemini AI model for real-time forest surveillance, detecting unauthorized intrusions and weapon threats
- Built weapon analysis features (type identification, size estimation, positioning) with automated email alerts to authorities for rapid response
- Applied advanced AI prompt engineering to improve detection accuracy and overall system intelligence

Voice Patient Call System | Hospital communication platform

June 2024

- Built a web-based hospital communication platform using Python and Flask with a voice-based call request system and real-time nurse dashboard
- Designed a scalable MySQL database for patient details, user information, and call history with API-based synchronization

CERTIFICATIONS & ACHIEVEMENTS

- Infosys Springboard Certification – Python Fundamentals, Data Science Tools, Web App Development
- Symposium Achievement – Paper Presentation (2nd Prize), Technical Quiz Participant
- UI/UX Design Workshop Certificate | AI & Machine Learning Online Webinar Certification

CORE COMPETENCIES

Full Stack Web Development • Python Programming • Web Technologies • Database Design & Management • AI/ML Integration • Backend Development • Problem Solving & Debugging • Team Collaboration • Agile Methodology • UI/UX Design Principles • Communication Skills • AI Prompt Engineering

LANGUAGES & INTERESTS

Languages: Tamil (Native), English (Professional) **Interests:** Continuous Learning, AI/ML Exploration, Web Technologies, Music, Sports
